INDEPENDENT AUDITOR'S REPORT

To the Member Denning & Company LLC San Francisco, California

We have audited the statement of financial condition of Denning & Company LLC as of December 31, 2007, and the related statements of operations and comprehensive income, changes in member's equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Denning & Company LLC, as of December 31, 2007, and the results of its operations and its cash flows for the year then ended, in conformity with U.S. generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained on pages 13 through 16 is presented for purposes of additional analysis and is not part of the basic financial statements. The additional information is required by Rule 17a-5 of the Securities Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material aspects in relation to the basic financial statements taken as a whole, and in conformity with the rules of the Securities and Exchange Commission.

NOTE A – Summary of Significant Accounting Policies

Organizational Structure and Business Activity

Denning & Company LLC (the Company) was formed as a Limited Liability Company in California in June, 2001, with a termination date of December 31, 2021. Under this form of organization, the members are not liable for the debts of the Company. The Company registered as a broker-dealer with the Securities and Exchange Commission in October, 2001, and became licensed with the National Association of Securities Dealers in January, 2002. The Company engages in private equity advisory services on a fee basis.

<u>Accounting</u>

These financial statements are prepared using the accrual method of accounting.

Statement of Cash Flows

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Accounts Receivable

The Company considers receivables to be fully collectible and accordingly, no allowance for doubtful accounts has been provided. If amounts become uncollectible, they will be charged to operations when that determination is made.

Furniture and Equipment

Equipment purchases greater than \$ 500 are recorded at cost. Maintenance and repairs are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful life (5 to 7 years) of the asset.

Foreign Currency Translation

For significant non-U.S. transactions, the functional currency is the Euro. Revenues earned are translated into U.S. dollars using the exchange rate on the date the revenue is earned. Accounts receivable are adjusted into U.S. dollars using the year end exchange rate.

NOTE A – Summary of Significant Accounting Policies (Continued)

Revenue Recognition

Private equity advisory fees are recognized as revenue when earned per fee contract or the success of a predetermined event.

Income Taxes

No provision or liability for federal or state income taxes has been made in the financial statements since the Company's income and losses are reported on the individual member's tax returns. The provision is for the annual state limited liability minimum tax and annual fee.

Regulatory Requirements

The Company is exempt from the requirements of Rule 15c3-3 pursuant to the rules for broker-dealers who maintain a special account for the exclusive benefit of customers.

Comprehensive Income

Statement of Financial Accountings Standards No. 130, Reporting Comprehensive Income (SFAS 130), requires the reporting of comprehensive income in addition to net income from operations. Comprehensive income is a more inclusive financial reporting methodology that includes disclosure of certain financial information that historically has not been recognized in the calculation of net income.

New Accounting Pronouncement

In September, 2006, the Financial Accounting Standards Board (the FASB) issued Statement of Financial Accounting Standards No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans – An Amendment to FASB Statements No. 87, 88, 106, and 132R (SFAS 158). SFAS 158 requires companies to recognize the funded status of pension and other postretirement benefit plans on sponsoring employers' balance sheets and to recognize changes in the funded status in the year the changes occur. The recognition provisions of SFAS 158 became effective for nonpublic companies for years ending after June 15, 2007.

NOTE B - Accounts Receivable

Accounts receivable at December 31, 2007, consist of amounts due from one client.

A gain on foreign currency translation of \$449,408 related to accounts receivable in the functional currency is included in the statement of operations for the year ended December 31, 2007.

NOTE C - Defined Benefit Pension Plan

In 2002, the Company established a qualified, noncontributory defined benefit pension plan covering all of its employees. The benefits are based on each employee's years of service and average annual compensation over the three highest consecutive plan years. An employee becomes fully vested upon completion of six years of qualifying service. Member benefit accruals were frozen December 31, 2003 in order to reduce the 2003 funding obligations. On January 1, 2004, by plan amendment, benefit accruals were unfrozen for all participants and the plan benefit percentage was increased from 200% to 500%.

The Company's funding policy is to contribute based on actuarial computations and the funded status of the plan. Contributions are intended to provide not only for benefits attributed to service to date but also for those expected to be earned in the future.

Funded status of plan at December 31, 2007

a. Accumulated pension benefit obligation	\$(1,448,725)
b. Additional amounts for pay increases	(77,115)
c. Total pension benefit obligation	(1,525,840)
d. Fair value of assets	1,400,793
e. Pension benefit obligation in excess of plan	
assets	(125,047)
f. Unrecognized loss	147,812
g. Prepaid pension costs	<u>\$ 22,765</u>
h. Additional minimum liability for unfunded	
pension benefits (a. $+ d g.$)	<u>\$(70,697</u>)

Reconciliation of prepaid cost before recognition of additional liability at December 31, 2007

Accrued pension cost at beginning of year	\$ (388,914)
Net periodic pension cost for the year	(254,733)
Actual contributions for the year	666,412
B 11	,
Prepaid pension cost at end of year	<u>\$ 22,765</u>

Unrecognized net loss

Unrecognized net loss at end of year	\$	10,158
Experience gain as of beginning of year		(76,482)
Unrecognized net gain at end of year		(66,324)
Investment loss for the year		214,137
TV	Φ.	1.47.012
Unrecognized net loss at end of year		147.813

NOTE C – Defined Benefit Pension Plan (continued)

Change in Projected Benefit Obligation

Projected benefit obligation as of the prior year	\$ 1,401,327
Service cost	271,924
Interest cost	62,240
Actuarial gain	(315,925)
Benefit payments during the year	106,274

Projected benefit obligation at end of year \$1,525,840

Change in Plan Assets

Fair value of assets at beginning of year	\$	975,360
Actual return on assets		(134,705)
Contributions during the year		666,412
Benefit payments during the year		(106,274)
Fair value of assets at end of year	<u>\$</u> :	<u>1,400,793</u>

Benefits expected to be paid in each of the next 10 years

2008	\$ 115,035
2009	113,554
2010	111,932
2011	110,184
2012	108,311
2013 - 2017	 508,618

\$ 1,067,634

The assumed discount rate used to measure the projected benefit obligation is 5%, the rate of increase in future compensation levels is 4% and the expected long-term rate of return on assets is 5%.

Plan assets at December 31, 2007 were made up entirely of interest bearing money market accounts. The long-term rate of return on assets is in line with the Corporate Composite Bond Rate published by the Internal Revenue Service.

NOTE D - Concentrations of Credit Risk

The Company maintains cash balances at one financial institution. Accounts at the institution are insured by the Federal Deposit Insurance Corporation up to \$100,000. At December 31, 2007, the Company's uninsured cash balances totaled \$133,785.

NOTE E – Lease Commitments

Minimum lease payments under a non-cancelable operating lease for the Company's office are:

2008	\$	99,300
2009		100,800
2010		100,800
2011		100,800
	_	

\$ 401,700

Lease payments aggregating \$78,300 are included in rent in the statement of operations.

NOTE F - Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1) which requires the maintenance of minimum net capital, and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. As of December 31, 2007, the Company's net capital is \$74,647, which is \$64,399 in excess of the minimum amounts required. The Company's ratio of aggregate indebtedness to net capital at December 31, 2007 was 2.06 to 1.0.

The rule provides that equity capital may not be withdrawn, subordinated debt may not be repaid and cash dividends may not be paid if the resulting net capital would be less than the amounts required under the rule.

January 21, 2008

To the Member Denning & Company LLC San Francisco, California

We have audited the financial statements of Denning & Company LLC for the year ended December 31, 2007 and have issued our report thereon dated January 21, 2008. As part of our audit, we made a study and evaluation of the Company's system of internal accounting control to the extent we considered necessary to evaluate the system as required by U.S. generally accepted auditing standards. The purpose of our study and evaluation, which included obtaining an understanding of the accounting system, was to determine the nature, timing, and extent of the auditing procedures necessary to express an opinion on the financial statements.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by Denning & Company LLC, that we considered relevant to the objectives stated in rule 17a-5(g), in making the periodic computations of aggregate indebtedness and net capital under rule 17a-5(g)(11) and the procedures for determining compliance with the exemptive provisions of Rule 15c3-3. Since the Company does not maintain customer accounts and does not handle securities, we have not made a study of the practices and procedures (including tests of compliance with such practices and procedures) relevant to the objectives stated in rule 17a-5(g) for (1) making the quarterly securities examinations, counts verifications and comparisons, and the recordation of differences required by Rule 17a-13; (2) complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System; and (3) obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3.

The management of the Company is responsible for establishing and maintaining a system of internal accounting control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgements by management are required to assess the expected benefits and related costs of control procedures and of the practices and procedures as referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the commission's above-mentioned objectives. The objectives of a system and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with U.S. generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

To the Member Denning & Company LLC January 21, 2008 Page Two

Because of inherent limitations in any system of internal accounting control of the practices and procedures referred to above, errors or irregularities may nevertheless occur and not be detected. Also, projections of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with procedures may deteriorate.

Our study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all matters in the internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Accordingly, we do not express an opinion on the system of internal accounting control of Denning & Company LLC, taken as a whole. Our study and evaluation disclosed no condition that we believed to be a material weakness.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2007, to meet the Commission's objectives and nothing came to our attention that would indicate the Company had not complied with the condition of its exception under rule 15c3-3 during the year then ended.

This report is intended solely for the use of management and the Securities and Exchange Commission and other regulatory agencies pursuant to their requirements and should not be used for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS
